

Job Description: QlikView Developer/Architect

Twitter Job Description:

Need phenomenal #QlikView developer/architect with deep experience, ingenuity, and patience for Wisconsin gigs.

The Pitch:

Resource Management Professionals is looking for a freakishly talented and insanely passionate Business Intelligence Pro who wants to change the world with QlikView, one .qvw at a time!

You are:

- a creative problem-solver
- a constant learner
- the type of person that thrives in a team environment
- someone who loves to take business needs and give life to a solution that you are proud of
- an envelope-pusher
- calm under pressure
- capable and comfortable leading other QlikView developers
- organized
- able to turn on a dime
- not high-maintenance or moody, we don't have time for that

You know well:

- all things QlikView
- helping clients to identify significant business value trapped in their data
- acquiring data from a wide variety of sources, building .qvd's and .qvw's
- applying business rules and data cleansing
- agile development techniques
- testing and debugging
- conducting SIBs
- Consumer Products, Healthcare, Manufacturing, or Insurance

You want to explore:

- new ways to bring value to clients
- the latest QlikView technology available
- serving applications in the cloud
- Wisconsin – the whole state, well, mostly Green Bay and south. Occasionally Arkansas.

Would rock if you:

- are already QlikView certified
- have a background in consulting
- love to learn from your peers and industry leaders
- love to share your expertise with clients and peers
- have been to Qconnections
- tend to talk about the future rather than the past
- blog
- have an alter-ego who knows SQL Server, the Microsoft BI stack and is a C#.NET developer
- have ever piloted an airplane, or maybe dreamed about it while riding a motorcycle
- are a networker and love to connect with others
- love great music
- have a broad sense of humor and a deep appreciation for the absurd
- love the Packers

METADATA

- Location
 - Work primarily in Milwaukee, Green Bay, and Madison Wisconsin areas. Other locations are possible
- Skill (Tags)
 - QlikView, BI, Dashboard
- Experience / Education
 - 2+ years of experience with QlikView, bachelor's degree required
- Employment Type
 - Will consider contract or permanent W2

If you're convinced you're the right person for the job, send us your resume and convince us. [Apply here: jobs@YourRMP.com](#)
