

Job Description: Experienced SSIS ETL Developer

- **Twitter Job Description:**

Needed: Phenomenal Microsoft #SSIS #ETL Developer with deep experience, ingenuity, and flexibility.

- **The Pitch:**

Resource Management Professionals (RMP) is looking for a seasoned ETL developer who is passionate about what they do and is driven to exceed client expectations. Extensive experience with SSIS is a must.

- **You are:**

- an experienced Microsoft BI Stack Developer
- a strong communicator (written and verbal)
- a creative problem-solver
- the type of person who takes on the responsibility to be great, regardless of circumstances
- someone who gives and receives feedback well
- a creator of solutions that you are proud of
- someone who carries your own sunshine, but doesn't try to pump it anywhere
- an envelope-pusher
- calm under pressure
- organized
- able to turn on a dime
- not high-maintenance or moody, we don't have time for that

- **You know well:**

- helping clients to identify significant business value trapped in their data
- SQL Server Integration Services
- SQL Server Analysis Services
- Kimball Star Schema database models
- agile development techniques
- applying business rules and data cleansing
- testing and debugging

- web services, XML
- **You want to explore:**
 - pushing your ETL ever-faster, and more efficient
 - integrating new and interesting data available on the web. Weather, investment data, etc.
- **Would rock if you:**
 - have one or more Microsoft Certifications
 - are capable and comfortable leading other developers
 - know SQL Server Reporting Services really well
 - are a member of PASS, and have been to a PASS Summit
 - love to learn from your peers and industry leaders
 - tend to talk about the future rather than the past
 - know Analysis Services data mining / predictive analytics
 - are a networker and love to connect with others
 - blog
 - have a broad sense of humor and a deep appreciation for the absurd
 - ride a motorcycle, or fly an airplane
 - have experience in Retail, Consumer Products, Healthcare, Manufacturing, or Insurance

- **METADATA**

- Location
 - Positions in Northwest Arkansas and Wisconsin, some travel required
- Skill (Tags)
 - ETL, SQL, SQL Server, Integration Services, SSIS, SSAS, PASS
- Experience / Education
 - 4 years of experience with SQL Server, bachelor's degree required
- Employment Type
 - Willing to consider contract or permanent W2
